

CONDITIONS OF PARTICIPATION FOR THE SWIM TO SURVIVE™ PROGRAM

The school board, school or aquatic facility submitting a participation request to the Lifesaving Society is hereby referred to as the "responsible person" and who will be in charge of carrying out the program in his environment.

1 – NAME OF THE ACCOMPANYING TEACHER

During pool sessions, the teacher accompanying the student group to the aquatic facility must stay available and actively involved during the whole length of the workshops. The teacher must not, in any case, attend to any task other than the supervision of their students. This will allow them to enforce discipline, accompany students to the bathroom as needed, reassure children experiencing difficulties, etc.

2 – STATISTICS AND PARTICIPANT EVALUATION RESULTS

Participation to the Swim to Survive™ program requires transmitting results through the online form available on the www.nagerpoursurvivre.com/en/ website.

These results :

- Total number of students participating in the program,
- Total number of boys,
- Total number of girls,
- Number of participants who completed the Swim to Survive standard alone (without PFD),
- The number of participants who completed the Swim to Survive standard with a PFD,
- Number of participants who tried to complete the Swim to Survive standard,
- Number of participants without results,

will be transmitted by the responsible person **within 30 days** of the last pool session. The responsible person must collect these evaluation results from the aquatic facility where the pool sessions took place.

The responsible person who grouped different schools under the same request must submit the results for every school separately.

These statistics will ensure the continuation of the program, namely by allowing the Lifesaving Society to release activity reports to the different funding partners involved in financially supporting the Swim to Survive™ program, for example by providing subventions.

3 – JUSTIFICATION FOR SUBVENTION PAYMENT

The responsible person who receive financial aid commit to transmitting justification documents (e.g. a copy of invoices) for the allowed expenses made during the program implementation, as well as program results, to the Lifesaving Society using the online form available at www.nagerpoursurvivre.com/en/.

- These expenses are only allowed for pool rental; **see invoice template**
- Instructor and lifeguard fees; **see invoice template**
- Transportation fees between the school and the aquatic facility wherein the pool sessions take place; **original invoice required**

N.B. The responsible person who are unable to submit admissible justification documents will not be awarded subvention payment; this does not, however, exempt them from transmitting the program results using the same online form, without which they will be invoiced the 4\$ per student fee provided by the Lifesaving Society.

4 – EVENT PHOTOS

There is no obligation for the requester to send event photos to the Lifesaving Society. However, given the importance of the program for the Ministère de l'Éducation et de l'Enseignement supérieur (MÉES), and the Princess Charlene of Monaco Foundation we strongly encourage you to allow the Lifesaving Society to showcase your school by associating it to the implementation of the Swim to Survive program in Quebec, and, at the same time, promote the learning of safe aquatic behaviours.

Photos sent by the responsible person must be copyright free. The school must have a signed and valid parental authorisation concerning the distribution for each child depicted on the photos (possible distribution on the Web or in documents).

5 – FAILURE TO RESPECT CONDITIONS OF PARTICIPATION

By submitting the participation request form, the responsible person commits to respecting the above conditions of participation, without which they can be invoiced the \$4 per student program fees attributed to the Lifesaving Society to covert parts of the organisation costs (including issuing an award to each participant).
